Caversham, Reading, Berkshire, RG4 5AF

EXCITING OPPORTUNITY

Have you spent the last few months considering a change of direction?

But not known what that looks like

Or maybe you are worried it may be too risky to start a new journey?

The Opportunity

Due to family circumstances a one off opportunity has suddenly arisen to take forward a really successful, profitable business with repeat clients and a 5 star reputation.

The right person could grow and develop it further and substantially, from its 6 year legacy base, without too much risk and in a short space of time.

Its a turn-key, ready to continue, genuine opportunity that only comes around occasionally. This business can be run from home, anywhere in the Thames Valley and affords maximum flexibility to work around childcare and other commitments, without the need for expensive premises/overheads.

In Brief:

The business offers a substantial range of proven creative workshops, wellness experiences and corporate team-building activities.

The business operates off-site at client premises across West London and the Thames Valley, for conferences, festivals and corporate events. Sessions typically range from approximately 45 minutes to 2 hours and are suitable for all abilities.

The business operates:

- Bespoke branded corporate experiences
- Conference warm-up sessions
- Drop-in creative stations
- Seasonal event packages
- Workplace wellbeing programmes
- Lunchtime creativity sessions
- Immersive themed experiences

The Risk:

Very little – with imagination and good marketing skills, and social media use (which hasn't really been explored) this business could be massive. You don't even need to be an artist!

Full training will be given – on all aspects including, marketing, client liaison, admin – & a handover period to introduce to suppliers and clients – working together to hand over seamlessly.

Investment:

In a very short space of time your investment of £30,000 will be repaid. Accounts available where applicable.

Notes:

This business has been developed through word of mouth over 6 years and it deserves to continue and develop in the right hands – we want to make sure that any transition is with someone who shares the passion for creativity that we have.
